Chemistry 11500

Exam I

Tuesday, February 11

8:00 pm

Elliott Hall of Music

Topics
● Review of Chemistry Concepts (Chapters 1, 2, 3, 5)
● Nuclear Reactions and Their Applications (Chapter 24)

Homework (and Associated Quizzes)
● Assignments 1 - 4 (part)

Recitation (and Associated Quizzes)
● Concept Problems (1/21; 1/28; 2/4)

Laboratory Experiments
● Characterization of Compounds from Chemical Interactions (Chapter 1)
● Reenactment of an 18th Century Analysis: Amount of Acid in Solution (Chapter 2)
● Chemical Synthesis (Chapter 3)
