Chemistry 11600

Final Exam

Saturday, December 20

8:00 am

STEW 183

New Topics (i.e., after Exam III)
• Thermodynamics (Chapter 20; Sections 1-4)
• Oxidation-Reduction Reactions (Chapter 4; Section 5)
• Electrochemistry (Chapter 21; Sections 1-7)

Final Exam Breakdown
• Approximately four (4) questions having smallest number of correct answers from each of Exams I - III
• Approximately twelve (12) questions from New Topics
• Approximately eight (8) general questions from entire semester

Keep in mind that homework, concept problems and lab experiments are still fair game for the exam!
