FTL-System Engineer

The Future Technical Leaders (FTL) program seeks high potential advanced degree candidates from all technical backgrounds. The program consists of three, one-year assignments in different roles, organizations, locations, customers and mission areas within Northrop Grumman. Rotational assignment(s) may include systems or software engineering, IRAD / CRADs in any technology areas, or opportunities to explore non-technical areas such as business development and project management.

Throughout the program, participants have many opportunities to:
- Expand resume and experience base considerably
- Receive significant, enhanced mentoring by experts in the field
- Accelerate technical, leadership and business skills development through networking and development opportunities
- Gain experience and insight into as much of the company as possible so participants can make a well-informed decision on their preferred Northrop Grumman position at program completion

Basic Qualifications:
Candidate must be completing a masters, doctorate or post-doctoral fellowship in a STEM field. Must have leadership and communication skills demonstrated through such things as academic group projects, involvement in professional associations, community or activities in other external organizations. Must be willing to relocate for rotations, be a U.S. Citizen and be able to obtain high-level security clearances.

Preferred Qualifications:
Applied technical experience and familiarity with systems engineering and / or software development. An excellent academic record, reflected in high GPA and / or outstanding recommendation letters.

Northrop Grumman provides equal employment opportunity to all employees and applicants without regard to an individual’s protected status: race/ethnicity, color, national origin, ancestry, sex/gender, gender identity/expression, sexual orientation, marital/parental status, pregnancy/childbirth or related conditions, religion, creed, age, disability, genetic information, veteran status, or any other protected status.
