Two Faculty Position Openings

Lamar University, a public, Carnegie Doctoral Research University, invites applications for two tenure-track chemistry faculty positions. The positions are available in fall 2016 pending final funding. These positions are expected to be at the rank of assistant professor. The review of applications will begin immediately and continue until the position is filled.

Lamar University is a medium sized comprehensive public university located in Beaumont, Texas, approximately 30 miles from the Gulf of Mexico and 90 miles east of Houston. As part of a new strategic plan, the University has increased its focus on research. With a recently completed $7 million renovation to our facilities, an investment of $1.5 million in instrumentation, and a growing graduate program, the Chemistry and Biochemistry Department is poised to make a significant impact in the region and the state.

Applicants with expertise in Environmental Chemistry, Biochemistry, Analytical Chemistry or Forensic Science, are particularly encouraged to apply. We are seeking motivated teachers and researchers with an earned doctoral degree. Postdoctoral experience is preferred. Candidates are expected to have a strong potential for creative, independent research and demonstrate a commitment to education at all levels.

Applicants must apply online at https://jobs.lamar.edu by completing the personal data information form and attaching a complete vitae, a statement of teaching interests and experience, research plans (including undergraduate participation but not to exceed five pages), and a list of at least three professional references.

A Member of the Texas State University System, Lamar University is an equal opportunity/affirmative action employer that actively seeks and encourages applications and expressions of interest from members of traditionally under-represented groups in higher education.
