Vanderbilt Institute of Nanoscale Science and Engineering (VINSE)

**Cleanroom Staff: Staff Engineer II / Process Engineer**

The Vanderbilt Institute of Nanoscale Science and Engineering (VINSE) seeks to hire additional cleanroom staff as we open our new 14,000 sq. ft. core facilities in the new Engineering and Science Building (ESB) pictured below.

VINSE is recruiting a cleanroom-focused process engineer to support research and coursework activities. The ideal candidate will possess a relevant science or engineering background supported by strong communication, teamwork, interpersonal and problem-solving skills. The successful candidate will play a critical role in VINSE’s efforts to support research across a broad range of technical disciplines and interests, to advance undergraduate education and to expand outreach activities with schools and other community groups.

Vanderbilt is a private, internationally recognized research university located on 330 park-like acres 1.5 miles from downtown Nashville, Tennessee. With a metro population of approximately 1.5 million people, Nashville has been named the “It” city by Time magazine and one of the 15 best U.S. cities for work and family by Fortune magazine. Vanderbilt University is an equal-opportunity, affirmative-action employer that aspires to become a leader among peer institutions in making meaningful and lasting progress in responding to the needs and concerns of women and members of under-represented minority groups.
