Trine University invites applications for a full-time faculty position in chemistry at the Assistant Professor rank. A Ph.D. in biochemistry or chemistry is required by the time of start date. Primary teaching responsibilities include biochemistry, general chemistry, and other courses within their area of expertise. In addition to teaching, the successful candidate should be expected to participate in campus culture, contribute to a highly collaborative department, participate in small-scale undergraduate research, and advise and mentor students.

The Department of Science at Trine University is a part of the Rinker-Ross School of Health Sciences, and offers B.S. degrees in chemistry, biochemistry, biology, and forensic science. The department is in Best Hall of Science, home of new anatomy and physiology, microbiology, biochemistry, organic, and physical/inorganic chemistry laboratories as well as space for student research. Additionally, the Best Hall of Science recently completed a $16 million, 36,000 square-foot addition.

Application materials including, a detailed curriculum vita, a statement of teaching philosophy, copies of undergraduate and graduate transcripts, and three letters of recommendation. Review of applications will start immediately and continue until the position is filled.
