Assistant Professor – Chemistry/Biochemistry
Trine University
Angola, Indiana

Summary
Trine University invites applications for a full-time faculty position in chemistry at the Assistant Professor rank. A Ph.D. in biochemistry or chemistry is required by the time of start date. Primary teaching responsibilities include biochemistry, general chemistry, and other courses within their area of expertise. In addition to teaching, the successful candidate should be expected to participate in campus culture, contribute to a highly collaborative department, participate in small-scale undergraduate research, and advise and mentor students.

Department Statement
The Department of Science at Trine University is a part of the Rinker-Ross School of Health Sciences, and offers B.S. degrees in chemistry, biochemistry, biology, and forensic science. The department is in Best Hall of Science, home of new anatomy and physiology, microbiology, biochemistry, organic, and physical/inorganic chemistry laboratories as well as space for student research. Additionally, the Best Hall of Science recently completed a $16 million, 36,000 square-foot addition. This addition includes new physical/inorganic chemistry laboratories, quantitative/instrumental chemistry laboratories, a collaborative learning classroom, faculty offices, and renovated molecular biology and biochemistry laboratories. The department is well equipped with modern instrumentation including two Anatomage tables, a Synergy HTX multi-more plate reader, BSL-II microbiology teaching lab, inverted and fluorescent microscopes, a genetics facility (nanodrop, genetic analyzer, thermocycler, and electroporator), and numerous chemistry analytical instrumentation.

Application Requirements
Application materials including, a detailed curriculum vita, a statement of teaching philosophy, copies of undergraduate and graduate transcripts, and three letters of recommendation. Review of applications will start immediately and continue until the position is filled.

Required Education
A Ph.D. in biochemistry or chemistry is required by the time of start date.
