

JEFFREY BODE

Laboratory of Organic Chemistry, ETH Zürich
Zürich, Switzerland

Title of Lecture: “Protein Synthesis with the KAHA Ligation”

Phone: +41-44-633-21-03

Email: bode@org.chem.ethz.ch

Education:

2001 Dok. Nat. Sci., ETH Zürich

1996 B.S., Chemistry, B. A., Philosophy, Trinity University

Research and Professional Experience

2001 – 2003 Postdoctoral Associate, Tokyo Institute of Technology
2003 – 2007 Assistant Professor of Chemistry, University of California, Santa Barbara
2007 – 2009 Associate Professor of Chemistry, University of Pennsylvania
2010 – present Professor of Chemistry, ETH Zürich
2013 – present Principal Investigator, ITbM, Nagoya University

Awards

2013 Fellow of the Royal Society of Chemistry (UK)
2011 Elias J. Corey Award for Outstanding Original Contribution (ACS)
2010 Hirata Memorial Lectureship and Gold Medal
2008 Discover Magazine, Best Brains in Science List, “Top 20 under 40”
2008 Arthur C. Cope Scholar Award (American Chemical Society)
2008 Roche Excellence in Chemistry Award
2007 Alfred P. Sloan Foundation Fellowship
2007 Bristol-Myers-Squibb Unrestricted Grant in Organic Chemistry
2007 Society of Synthetic Organic Chemistry, Japan (SSOCJ) Lectureship Award
2006 David and Lucille Packard Foundation Fellowship
2006 MIT Technology Review TR35: Top 35 Innovators Under 35
2006 AstraZeneca Excellence in Chemistry Award
2006 Research Corporation Cottrell Scholars Award
2006 Beckman Young Investigator Award
2004 National Science Foundation CAREER Award
2003 Camille and Henry Dreyfus New Faculty Award

Research Interests

Prof. Bode’s research group works on the development of new organic reactions and their applications to contemporary synthetic challenges including chemical protein synthesis, bioconjugation, new biomaterials, and methods for the synthesis of saturated N-heterocycles and chemical libraries.
